

Home Baking Reduces Cost of Living

THE U. S. Dept. of Agriculture in Experiment Station Bulletin No. 142 says that ten cents worth of wheat supplies almost three times as much protein and ten times as much energy as round steak, and with some other cuts the difference is even greater.

If then, one really desires to reduce her weekly meat and grocery bills, she need only make more use of her oven.

Who ever heard man, woman or child complain that good home-made biscuits, muffins, cake and cookies appeared on the table too often? Instead the tendency is "to make a meal of them" and the variety is so great that something you bake yourself could well be the chief feature of every meal.

Home Baking is Simplified by the Use of K C Baking Powder

With K C, you can make things moist and rich yet have them light and feathery, wholesome and digestible. Biscuits may be mixed the night before and baked fresh for breakfast. Muffins need not be dry and heavy. You can make a cake so light that you can hardly get it out of the pan whole, yet it will not fall.

K C is not like the old fashioned baking powders. It is *double acting* and continues to give off leavening gas until the dough is cooked through. K C is sold at a fair price—a large can for 25 cents. This would be no object if strength and purity were sacrificed, but every can is fully guaranteed under State and National Pure Food laws and to please. We take all the chances. Your money back if you do not get better results with K C than any baking powder you ever used.

Include a can in your next grocery order, try some of the new recipes that appear in this paper from time to time. Then you will have gone far toward solving this vexing "Cost of Living" problem.

ABOUT BURNING OF THE ALFALFA MILL

Claim for \$40,000 Damages Made By Company on Trial Before Attorney from Justice Department

That the Arizona Alfalfa Mill certainly burned very hotly a couple of years ago, and that defective wiring had something to do with starting the fire were two items of testimony extracted from about ten witnesses for the claimants in the special hearing before Assistant Attorney General Ashbaugh yesterday. The recital of fire stories from neighbors, and the description of the wiring done by George McClarty formed the major portion of yesterday's testimony, and when the sitting closed, the case was brought almost to the defense side.

Mr. and Mrs. C. Davis and Mr. and Mrs. W. D. O'Neil and others residing near the plant, were questioned about the fire—which they all claimed to have witnessed. Nearly all agreed to the "spitting of blue fire" by the electrical wires.

Messrs. C. D. Young and A. F. McCaleb, of the Arizona Alfalfa Mill company, were important witnesses for the claimants, being represented by Alexander and Christy.

"Johnny" Brown, a fireman, was placed on the stand to tell about the fire itself.

McClarty, who installed the company's machinery, told how it was done, and what it was like after the fire. It is understood that J. S. McIlwaine, the reclamation service engineer who put in the service connections for the government will be an important witness for the defense.

DEPARTMENT HEADS FOR WOMAN'S CLUB

Everything Now in Readiness for Big Inning Season's Activities in Fall

When the Woman's club opens in October the season's work will be outlined and every officer ready to take up her duties.

The year book will be issued early in the autumn, and besides, the constitution and by-laws will contain a list of officers, standing committees and programs. Before the close of the club in April the department chairmen were elected and the appointments of the standing committees by the president, Mrs. H. B. Wilkinson, yesterday, completes the last detail.

The courtesy committee is the only new branch of the organization, Mrs. W. L. Pinney is its chairman and the other members include Mrs. H. P. DeMund of the executive board and Mrs. W. S. Goldworthy. The other committee appointments follow:

Program: Mrs. H. B. Wilkinson chairman, Mrs. W. W. McNeill secretary, Mrs. C. E. Almsworth, Mrs. W. E. Duff, Mrs. George Brockway, Mrs. J. L. B. Alexander.

House: Mrs. E. E. Kirkland chairman, Mrs. W. P. Sears, Mrs. J. C. Hurley.

Social: Mrs. Geo. Vickers chairman, Mrs. Gus E. Noll, Mrs. L. D. Dameron.

Press: Mrs. W. S. Norvick chairman, Mrs. Anell Martin, Mrs. M. H. Williams, Mrs. S. B. Michelson, Mrs. L. M. Harrison.

Good Fellowship Day: Mrs. E. B.

JIM YULE GOES FREE ON ERROR

County Attorney of Gila Fails to Hold New Trial Previously Granted in Legal Time and in Consequence Case Lapses.

The fact that the county attorney of Gila county overlooked the case of Jim Yule, granted a new trial for assault with intent to kill, until after the sixty days from the time it was granted by the superior court, resulted yesterday in Yule being given his freedom, by reason of a decision of the supreme court. The law of the state is very clear in regard to the matter, and provides that if the defendant is not brought to trial within sixty days from the time a new trial is ordered, the case shall be dismissed.

In the habeas corpus case of Jim Yule, appellant, vs. State of Arizona, Respondent, Criminal No. 338, the Supreme Court filed an opinion reversing the finding of the superior court of Gila county. The appellant was tried on September 20, 1912, for an assault with intent to kill, but was granted a new trial on October 19, 1912. The county attorney of Gila county failed to bring the case to trial until January 23, 1913, and on that day the appellant filed a motion to dismiss the case for failure to prosecute the same within sixty days after the new trial was ordered, alleging the trial had not been postponed at the instance of the appellant. This motion was heard and denied and the appellant filed his petition for a writ of habeas corpus, alleging that he was illegally restrained of his liberty. The writ was denied on February 27, 1913 and the appellant appealed from the order denying the writ.

Winstanley chairman, Mrs. Joseph H. Kibbey, Miss Abbie Picknell. Bazaar: Mrs. T. W. Pemberton chairman, Mrs. E. T. Collins, Mrs. E. E. Kirkland.

Reception: Mrs. S. K. Levi chairman, Mrs. Emory Kays, Mrs. M. E. Moen.

Grounds: Mrs. L. J. Johnson chairman, Mrs. H. A. Diehl. Treasurers' assistants: Mrs. W. M. Costley, Mrs. C. C. Gibbons.

WILLOWS RESORT IN FULL SWING AGAIN

Willows Park, a few miles below the city is in full swing again. There were not enough bathing suits to accommodate all who wanted them last Sunday, though all in use last season were on hand; 350 new suits have been ordered and will be on hand next Sunday. The Willows became quickly popular last season. It has the largest natural pure warm running water pool in the state where one can remain all day in comfort. Bathers may bring their own suits, the management furnishing towels, room and bath for fifteen cents. This offer holds good for the rest of the season.

The boating and fishing there are

delightful. The pool is surrounded by firm sandy beaches. There are many beaches in the adjacent shade, free to all. Arrangements are being made for a twenty-five cent round trip to the resort. Arrangements have been made for the entertainment of guests by the week or month, a number of tents having been provided.

"WASTE PLACES" AUTHOR WRITES ON THE VALLEY

J. C. Gillson Here to Write Special Articles on Arizona, Starts With Phoenix for Oakland Tribune.

"You have lots of things I can praise, and some which do not impress me so favorably," said J. C. Gillson, special representative of the Oakland Tribune, who arrived here yesterday to get material for six special articles on Arizona. "But I shall sugar-coat the pill, so it will not be bad to take."

"On the whole, I am very much pleased with Phoenix. I suppose everyone tells the people the same thing. It is quite true, in my case, however, and I expect to say so."

Mr. Gillson is the author of a book, entitled "Making Use of the Waste Places." He does not consider the Salt River valley so wasteful, now.

FINANCE AND MARKETS

[ASSOCIATED PRESS DISPATCH]
NEW YORK, June 15.—The judgment of the speculative community as to the stock market probabilities held in abeyance and price movements were narrow. Shorts sought to make a bear argument out of Washington advices setting forth President Wilson's insistence on putting through at the present session of congress the administration's trust legislation program, but the market was not affected markedly. The drift was downward, the weakest stocks in the list of shares of Gould roads, St. Louis Southwestern preferred broke seventeen fourths on the passing of quarterly dividend, which three months ago was reduced from one per cent to half per cent and common stock fell three points, other Gould shares sold off sympathetically, while Denver and Rio Grande common yielded 2 points to ten and preferred 3 points to 17, both were low records for a long period of years. Missouri Pacific sagged more than a point. The engagement of gold for export continued, but on a smaller scale than last week. The extent of this movement was due to the poor bank statement Saturday which reflected in the money market. Time and call loans firmer. Bonds irregular. Total sales represented a par value of \$1,850,000 United States bonds, unchanged.

Iron Springs Santa Fe Station Opens For Summer

Railway Station at Iron Springs, Arizona, 6,200 Feet Above Sea Level

W. S. Goldworthy, general agent of the Santa Fe, has received official notice that the railway station at Iron Springs was opened with an

agent in charge, yesterday. This means that the telegraph office and express office are also open. This will be good news to the Iron Springs people, as they will be no longer obliged to act as their own baggage masters.
